From: H. C. Albin, Chief, Special Commodities Branch

Subject: Reporting of Government Limitations on Commodities Handled by this Branch

- A. Reports of Government limitations on each commodity handled by this Branch shall be submitted quarterly by the commodity divisions. In addition to the quarterly reports, a report shall be submitted each time a commodity is subject to a major change in limitations.
- B. The reports shall be entitled "Government Limitations of Report No. ", and shall cover the following points:
  - 1. Raw Materials
    - a. Government Orders (WPB, WFO, etc.). Under this heading a brief but complete statement should be made of each component part of the commodity as to the limitations that are imposed by government orders (identify order). Only the limitations on the raw material itself should be developed. (It is not intended that government orders affecting packaging and related activity need be reported here.)

Allocation of each component part of commodity. Indicate the allocation of each component part that has been made for the production of the commodity or to the industry from which the commodity must get its supply. State the date and the agency that made the allocation.

Rationing of each component part of commodity, indicating the manner of rationing, point values, etc. For example, shortening, a component part of army biscuits, is under ration by OPA regulations and, therefore, the pertinent information concerning shortening should appear in the report on army biscuits.

d. Any price regulations for any of the components of the finished commodity should be reported. (Identify the regulation.)

If the production of the commodity does not involve any other commodity as a component of the finished product, then only (a) above shall be completed for the basic commodity. An

example of this is tea, which is limited by WFO's 21 and 18. This will be indicated under (a) and it will not be necessary to complete b, c, and d, since these subjects 2. Processing
